It is claimed that because Frank Chestham is no orator he ought not to be sent to Congress. In framing the Constitution of the United States the labor was almost wholly performed in committee, of which George Washington was chairman. Late advices by mail and cable portend a distressing winter for England. Coal has enormously risen from the rates charged last year. This of itself would prove a bardship, especially to the poorer classes. A writer in one of the agricultural papers of England estimates that 1,630,000 acres of the potato crop are all but destroyed, while another equally good authority declares that he "bardly ever remembers the malady so general and the destruc-tion so complete." In Ireland and Scotland the crop is also blighted, possibly t ot to the same extent as in England, but suff iently extensive to be severely felt by the poor classes in both countries. The foot and mouth disease among the cattle is another cause for alarm. In Norfolk, in two weeks, the loss in sheer alone amounted in value to over one hundred and twelve the sand dollars. Taking everything into nsideration, it is evident that the apch of winter is regarded with feelings

### WALL STREET.

A Lively Scrimmage and a Running Fight.

NEW YORK, Sept. 18-The situation Wall street this morning was alarming. The Germans held on tenaciously to the Erie corner, and the Smith and Gould party were eager for another fray. They had calculated the condition of the importing interests and found the squeeze in gold brought down some of the heaviest importers in the city. They estimated the resources of the Treasury Department, and felt certain the Secretary could not come to the relief of the street. But there came in-dications that the Treasury Department would not remain passive. At noon the offerings of bonds opened at the Treasury, and the amount was found to be \$4,753,850 at 110 87@112-75. With more than promptitude the announcement made that the Secretary would take three millions instead of one million as advertised. This was an indication that the Secretary Intends to be prepared to sell more than the advertised fect of these tactics was felt in the gold exchange where the prices suddenly fell to 1131, the lowest of the day. The rate for cash coin dropped to 1-16 per day against a per cent this morning, and the gold operators breathed freely. Nothing more than a running fight could be kept up in the money market this afternoon. The turn of the day was so decidedly against the lock up party, that the prices fell to six per cent, though the closing rate was seven. The Treasury purchases of bonds were made all the more serviceable by the payment being made in legal tenders. The high rates of mone; yesterday attracted much capital to the street to-day, and this was supplemented by fresh supplies of gold and consequently of currency. On the top of this came the relief from the Treasury, and the result is a great disaster is averted. It is reported that a corner will be made tomorrow in Union Pacific, C. C. and I. C.

New York, Sept. 17.—The Sun of this morning prints the following important editorial: "A meeting of certain prominent Grant managers, including, as we are informed, Henry Wilson, candidate for Vice President, took place in this city at the Fifth Avenue Hotel, on Friday evening last. Oakes Ames, member of Congress for the second district of Massachusetts, and bribery agent of the Credit Mobilier, was present by special request. THE PAIR.

To the Editor of the Union and American:
SPRINGPIELD, Sept. 16, 1872.—The readers of your valuable and interesting journal, I have no doubt, have been often and forcibly reminded of the existence of such a county as ROBERTSON, (a large majority of sign and ornamental painters, and some ornamental printers, persist in spelling it Robinson,) the county where an ex-

ing it Robinson,) the county where an extract of corn and other grains as a liquid, form the principal article of export, and where the natives themselves consider it no disregard of good morals to indulge moderately in the use of Robertson County "straight," and occasionally mixed with the granulated extract of cane. Presuming, however, that most of your readers are conversant with the subject of Robertson County, "straight" or "mixed," I will, therefore, proceed at once to "what I know about" Apple and Peach Parers. BOBERTSON COUNTY POLITICS.

I am aware that this is a subject which just now is somewhat "mixed" in regard to the caudidates for Congress for the State at large, Cheatham ar Johnson; but from all I can learn and observe, it will soon be "straight" Cheatham or Maynard, Johnson OUR STOCK OF THE ABOVE USEFUL implements is now very full and complete, and we think we can make prices satisfactory to all

being almost, if not entirely, out of the race. Such a revolution in the minds of men and voters, especially the citizens of this county, has never before been witness ed by the "oldest inhabitants." As soon ed by the "oldest inhabitants." As soon as it became apparent to all thinking and well informed Democrats and Conservatives that Mr. Johnson's policy would break up and divide the opposition to Grant in this State, and thereby endanger the re-election of Gov. Brown, that moment they renounced Johnson, and now are warm and ardent supporters of Gen. Cheatham. Now, this is no idle boast or assertiou. Anybody who will take the troub'e to investigate and inform himself, can find right here the most indubitable proof by consulting any citizen of the county. When life-long Democrats see the efforts of Mr. Johnson and Colyar, et id omne genus, seconded by that arch-plotter against the Democratic party, the Banner, to disorganize the opponents of Grant and the Radical party of the country, the think it high time to pause and reflect upon the consequences. They know, as every intelligent and well-informed man in the whole country is awaretthat the Demo

the candidates for the lower house of the next Legislature opened the ball to-day at Cedar Hill, which was well attended and which elicited the mightlest efforts of aspiring weuld-be Legislators. The can-vass will be continued with vigor for seve-

ral days, and perhaps weeks. THE ROBERTSON COUNTY PAIR, from all indications, will prove to be the most successful of any yet held. The usual in its success. Ample and complete arrangements have been made for the accommodation of exhibitors and visitors.

A RADICAL GUN SPIKED.

and Certain Colored ( Itisens. HORACE GREELEY-Sir: As citizens of the Republic whose rights have been secured through the instrumentality of associations with which you have been prominently and intimately identified in the past, religiously respecting the rights of all other citizens while zeatously guarding our own and desiring to manifest our appreciation of that reconciliation of which you are the living representative, and which must pre-cede the lasting peace and prosperity of the country, we take the liberty to request that you inform us what will be the policy of your administration toward the colored people of the country in the event of your

lection to the Presidency of the United We have the honor to be, very respectfully, etc. [Signed by some forty colored chizens.]

MR. GREELEY'S REPLY. New York, Sept. 9, 1872 —Gentlemen: I have yours of the 7th inst., to which I make prompt and brief reply. Should I be chosen President I should of course take z authordinate lodges and encampments to be 25c per capita instead of 10 per cent of their receipts; changing the title of the Grand Lodge to the Grand Lodge of Ameliation of the United States. That noble instrument recognizes no distinction be instrument recognizes no distinction be-tween citizens of the United States based on color, and I should be governed thereby I should not especially favor one race or another, but I should use all the power of my office to uphold and enforce the equal rights of all citizens, whether white or black. Yours, HORACE GREELEY. To Messrs. W. U. Saunders and others,

GEN. QUARLES AT JACKSON.

Grant's Administration - Cheatha and Johnson-Conventions. To the Editor of the Union and American:

was present. It was composed of citizens The afternoon session was devoted to from nearly all parts of the county, and the the consideration of the reports of com-mittees on the subject of the e\_tent and the attention of his hearers showed an apcharacter of the jurisdiction assumed by preciation and interest seldom obtained by any public speaker here. He told us how, without becoming Republicans, we could take Greeley and Brown as our standard bearers although they were not Democrats Lodge committee reported that the law on the subject seemed fixed by long usage. His reasoning was so plain that the wayfar-ing man readily understood how abandoning the dead issue of slavery, which made the Grand Sire in his report, and the com- Horace Greeley our bitter enemy in the

Finding that the hearts of all (I may say) were with him on the question of the Presidency, he alluded to the contest between our gallant leader Cheatham and the great ex-President. After showing that the latter had been elevated to nearly every office he had held by Conventions, he presented him now as a bolter from nearly as respectable a Convention as has ever been held in the State, and showed him in the bold light of a disorganizer. He stated that he would rather have honest old Frank Cheatham, with his hard, good sense, to represent him in Congress than any man he knew in the State, be his mind so great
